- 

N.B. Our controlled tests we have attempted to undo the stitching that binds the 5 layers together; we have never been able to undo more than 1 or 2 2-inch by 2-inch-square quilted sections within 15 minutes. As stated in our instructions for use, our product should be accompanied by a watchful eye every 15 minutes. We expect our product to be checked before each use and after each wash to ensure the safety of our products. If there are any unstitched threads, the product should be removed immediately from circulation.
